

INVESTING IN COLORADO'S ROOTS HB20-1422

The Colorado Food Pantry Assistance Grant Program helps food pantries and food banks purchase critical meat, dairy and fresh produce from local Colorado farmers and ranchers.

In 2018, the grant awarded \$451,250 to 94 food pantries (including all 5 food banks in the state), serving all 64 counties and over 86,000 clients.

These food pantries bought 449,185 pounds of food from 130 local farmers. If there were no limits on the grant, food pantries requested an amount of just under \$2 million.

Support HB20-1422 to continue Colorado's work in responding to community food needs and supporting Colorado's local producers.

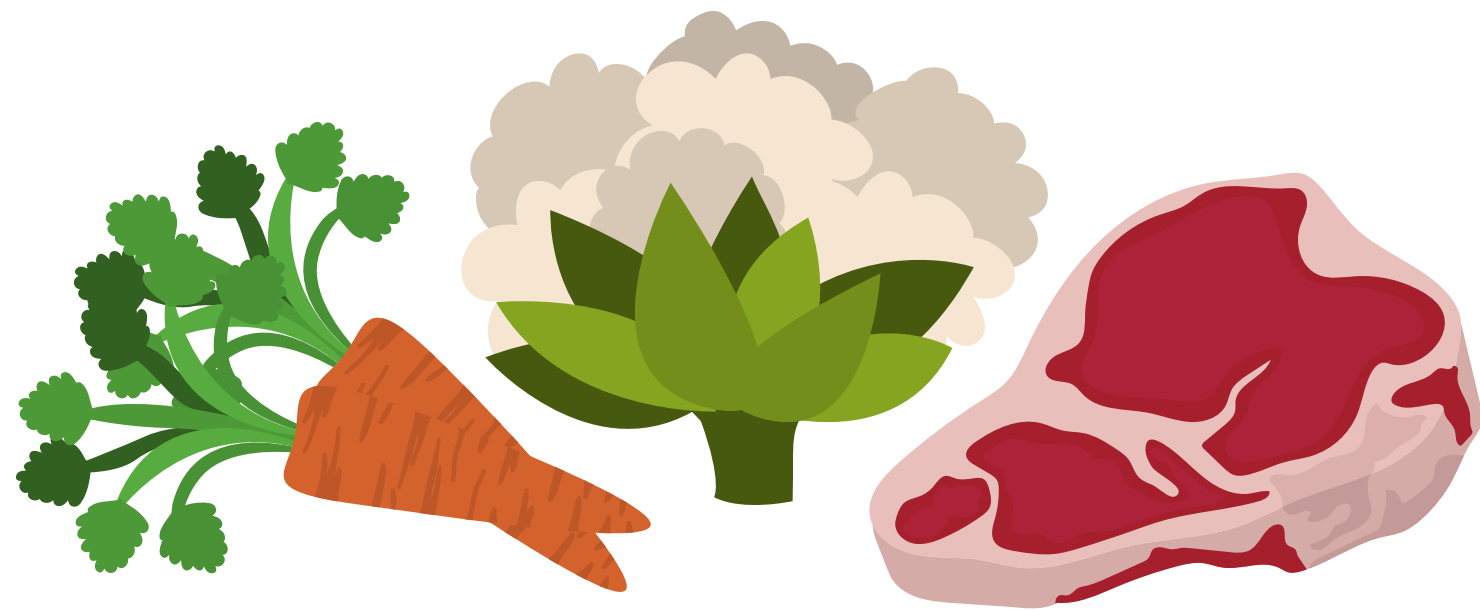

● Food Pantry ● Producer

"(Orders from food pantries) definitely helped this year. It felt like it was just a really consistent order, every week. And that adds up! Even if it's just a little bit every week... It helped our year not be so difficult." - Colorado producer

"I need to meet program margins, we're stuck with selling to people with a fair amount of income at farmers markets and to nice restaurants. (This grant) assists in the vision of getting food to people who need it, at a fair price." - Colorado producer
